IBRA SHOWERS

Una nuova sfida . A new challenge . Un nouveau défi

L'esperienza maturata nel campo del mobile ha permesso all'ufficio ricerca e sviluppo di cimentarsi negli anni con diversi materiali, tra i quali alluminio, vetro, acciaio inox e altri che sono serviti ad avere nelle prime fasi della progettazione un know-how strutturato.

Lo staff di Ibra Showers è interamente costituito da tecnici e figure commerciali con esperienze pluriennali nel settore. Prodotti come il piatto doccia e la cabina doccia necessitano infatti di una esperienza maturata sul campo. Ibra docce si presenta come il tassello che completa la gamma dell'offerta Arbi, che oggi può spaziare dal mobile, al lavabo, alla vasca, al box doccia completo di piatto, al termoarredo, in una soluzione chiavi in mano e coordinata.

Come sempre Arbi ha deciso di avvalersi di fornitori e artigiani del territorio. L'interazione con i loro team stimolano quotidianamente nuove sinergie.

The experience gained in the field of furniture has brought the research and development office to try its hand over the years at different materials, including aluminum, glass, stainless steel and others, which helped develop a strong know-how in the early stages of the project.

The staff of Ibra Showers is entirely made up of technicians and commercial figures with many years spent in this field. Products such as the shower tray and the shower enclosures actually require a high degree of experience. Ibra Showers presents itself as the piece that completes the range of the Arbi offer, which today ranges from the furniture, to the sink, to the bathtub, to the shower enclosure which can be completed by shower tray and a radiator, in a turnkey and coordinated solution.

As always, Arbi has decided to make use of local suppliers and artisans. The interactions with their teams stimulates synergies on a daily basis.

L'expérience acquise dans le domaine du meuble a amené le bureau de recherche et développement à s'essayer au fil des années à différents matériaux, dont l'aluminium, le verre, l'inox et autres, ce qui a permis de développer un savoir-faire solide dans les premières étapes du projet.

Le personnel d'Ibra Showers est entièrement composé de techniciens et de commerciaux avec de nombreuses années passées dans ce domaine. Des produits tels que le receveur de douche et les cabines de douche nécessitent en effet d'un haut degré d'expérience. Ibra Showers se présente comme la pièce qui complète la gamme de l'offre Arbi, qui va aujourd'hui du meuble, à l'évier, à la baignoire, à la cabine de douche qui peut être complétée par un receveur de douche et un radiateur, pour fournir une solution clé en main et assortie.

Comme toujours, Arbi a décidé de faire appel à des fournisseurs et artisans locaux. Les interactions avec leurs équipes stimulent les synergies au quotidien.

luxor

Il calore del legno, il fascino della ceramica e il prestigio del quarzo resina vengono resi ancora più affascinanti da lavorazioni innovative. Con Luxor lo spazio diventa piacere puro della bellezza, senza compromessi né paragoni. L'anta a telaio di Luxor, grazie al profilo oro, nero, bianco o colorato, crea innumerevoli contrasti con i frontali, che possono essere laccati, in Laminam, in legno o in quarzo resina e con la scocca laccata o legno, per creare un ambiente bagno assolutamente personalizzabile e unico.

The warmth of wood, the charm of ceramic and the prestige of the quartz resin are made even more fascinating by innovative processes. With Luxor, space becomes pure pleasure of beauty, without compromise or comparison. The Luxor framed door, thanks to the Oro, Nero, Bianco or colored profile, creates countless contrasts with the fronts, which can be lacquered, in Laminam, in wood or in quartz resin and with the lacquered or wooden body, to create a bathroom environment which can be completely customizable and unique.

Avec Luxor, l'espace devient pur plaisir de beauté, sans compromis ni comparaison. La porte à cadre Luxor, grâce au profil Oro, Nero, Bianco ou coloré, crée d'innombrables contrastes avec les façades, qui peuvent être laquées, en Laminam, en bois ou en quartz résine et avec le caisson laqué ou en bois, pour créer un environnement de salle de bain qui peut être complètement personnalisable et unique.

fusion

Fusion trova nella linea curva il proprio segno caratteristico: una collezione di mobili di design che accosta i volumi morbidi delle basi alle rigide geometrie delle colonne e dei vani a giorno. Dalla collaborazione tra Arbi e lo studio Meneghello e Paoelli Associati nasce la nuova variante MOBY, caratterizzata dalla particolare maniglia. La collezione crea un inedito equilibrio nella stanza da bagno, grazie alle forme morbide e ai raffinati accostamenti. Arredi bagno pratici e funzionali che formano un'atmosfera accogliente e rasserenante, adattandosi perfettamente a ogni stile e personalità.

Fusion finds its characteristic sign in the curved line: a collection of design furniture that combines the soft volumes of the bases with the rigid geometries of the tall units and open compartments. The new MOBY variant borns from the collaboration between Arbi and Meneghello and Paoelli Associati, characterized by the particular handle. The collection creates an unprecedented balance in the bathroom, thanks to the soft shapes and refined combinations. Practical and functional bathroom furnishings that form a welcoming and soothing atmosphere, adapting perfectly to every style and personality.

Fusion trouve son signe caractéristique dans la ligne courbe : une collection de mobilier design qui combine les volumes doux des bases avec les géométries rigides des colonnes et des compartiments ouverts. La nouvelle variante MOBY est née de la collaboration entre Arbi et Meneghello et Paoelli Associati, caractérisée par la poignée particulière. La collection crée un équilibre sans précédent dans la salle de bain, grâce aux formes douces et aux combinaisons raffinées. Des meubles de salle de bain pratiques et fonctionnels qui forment une atmosphère accueillante et apaisante, s'adaptant parfaitement à chaque style et personnalité.

fold

Con la sua inclinazione a 45° che sembra accogliere e accompagnare la presa della mano, la gola a incasso di Fold è l'elemento caratterizzante di un progetto che trasforma l'essenzialità in versatilità. La modularità del progetto e la scelta fra molteplici sensazioni cromatiche e materiche, consentono di interpretare ogni spazio in un modo speciale.

With its 45 ° slope that seems to welcome and accompany the grip of the hand, the recessed groove of Fold is the featuring element of a project that transforms essentiality into versatility. The modularity of the project and the choice between multiple chromatic and materic sensations, allowing each space to be interpreted in a special way.

Avec sa pente à 45° qui semble accueillir et accompagner la prise de la main, la rainure encastrée de Fold est l'élément vedette d'un projet qui transforme l'essentialité en polyvalence. La modularité du projet et le choix entre de multiples sensations chromatiques et matérielles, permettant à chaque espace d'être interprété de manière particulière.
